Become a CNRN

The Certified Neuroscience Registered Nurse (CNRN) is a nationally recognized credential and represents specialized experience and knowledge in the care of patients with neurologic injury and illness. Earned and maintained by over 3,000 neuroscience nurses, the credential assists your patients, peers and organization in recognizing your unique abilities in caring for a very special patient population.

CNRN Exam Eligibility

Eligible candidates must have a current RN license and must be engaged in neuroscience nursing clinical practice or employed as an administrator, consultant, educator, or researcher. At the time of application, a candidate will have completed the equivalent of at least 1 year (2,080 hours) within the last 3 years of full-time direct or indirect neuroscience nursing practice. For a detailed explanation of eligibility requirements and to apply to sit for the CNRN exam, obtain a copy of the ABNN Candidate Handbook and Application, available at <http://abnncertification.org/>

CNRN Exam Application Deadlines

The CNRN exam is offered in a Computer-Based Testing (CBT) format. The CBT exam is offered at approximately 300 PSI/AMP testing sites throughout the United States and Canada.

The remaining exam windows for 2019 are as follows:

July 1-31, 2019 (Register by June 3, 2019)

October 1-31, 2019 (Register by September 2, 2019)

Exam appointments must be scheduled online or by phone with PSI/AMP. Refer to the ABNN Candidate Handbook for 2019.

CNRN Review Course

The CNRN review course is intended to accompany self-study exam preparation and is designed for the experienced neuroscience nurse serious about obtaining specialty certification within the next year.

The CNRN exam is challenging and requires study outside of this review course. Taking this course does not guarantee a passing score on the exam.
